Trade Commodities Company

About us

«Trade Commodities Company» LLC is a young and dynamically developing company. Its activity started in 2007 with supplying Russian market with tomato paste.

In the year of 2008 we considerably enlarged our product range and were the first in Russia to use trademark

for B2B commodities identification.

Only high quality commodities are produced under "BioniQ" trademark.

BioniQ is a symbol of natural and healthy product that we offer.

Under this trademark we produce commodities on our suppliers factories according to our requirements of specification and under control of our technologists.

The Clients of our Company are producers of:

- ✓ baby food;
- ✓ ketchups & sauces;
- ✓ canned vegetables;
- ✓ juices & nectars

Concentrate juices that we deliver may be used as:

- ✓ natural colorant (elder, chokeberry, beet-root);
- ✓ flavor additive (strawberry, raspberry, cherry, currant, blackberry, carrot);
- ✓ sugar substitute (apple, white grapes)

The Company accomplishes trouble-proof delivery of raw materials for the factories and plants aim at producing quality goods which at the same time would have competitive prices.

«TCC» LLC, supplying a wide range of high quality ingredients, offers:

- ✓ the system of large order discount;
- ✓ flexible payment conditions;
- ✓ special conditions for professional resellers;
- ✓ supplier's credit for regular customers;
- ✓ supply of exclusive kinds of goods against customer's order;
- ✓ regional cargo delivery;
- ✓ charge-free technological support

It is very important for us to establish close partnership with our clients, and not only satisfy the demands, but surpass them.

It is enough for our client to formulate enquiry and our managers will organize production of even the most infrequent and unique materials.

The Company's specialists have a great database and always ready to suggest their decisions.
